Anastasia Nebylitsa

UX/UI DESIGNER & DEVELOPER

I am a creative and innovative UX/UI designer and developer based in Valencia (Spain), passionate about designing aesthetic and accessible user interfaces.

Experience

UX/UI Designer in United Nations International Computing Center

Jan 2023 - Jan 2026

- Created wireframes and interactive prototypes in Figma for learning platform projects for three different UN organizations.

- Participated in both full website creation projects and redesigns, where I aligned with my team and adapted my workflow to meet the unique requirements of each project.

- Participated in the development of a central design system to streamline the design process for other projects.

- Ensured continuous learning in digital accessibility, applying at least WCAG AA level standard in all projects I worked on.

- Collaborated with cross-functional teams, working closely with Project Managers, Business Analysts, developers, and other roles.

- Led workshop sessions with clients, conducting research with constant feedback.
